PROFESSIONAL SUMMARY

Software Engineer with **4 Years 7 Months** of experience in enterprise and consulting-driven application development. Strong expertise in Java, Spring Boot, Microservices architecture, and React-based integrations. Experienced across full SDLC including requirement analysis, high-level design, development, testing, CI/CD, deployment, and production support. Proven ability to build scalable, secure, and high-performance systems aligned with SLAs and business objectives. Strong debugging, performance tuning, and architectural problem-solving skills within Agile environments.

TECHNICAL SKILLS

Languages: Java, JavaScript

Frameworks & Technologies: Spring Boot, Spring MVC, Spring Data JPA, Hibernate (ORM), Spring Batch, Spring Security, Microservices, RESTful Web Services, API Integration, Camunda BPM

Frontend Exposure: React (Hooks, State Management)

Databases: RDBMS, SQL (Joins, Indexing, Query Optimization, Normalization)

DevOps & Tools: Git, GitHub, GitLab, GitLab CI/CD, Maven, Jira

Concepts: OOP, Design Patterns, Transaction Management, Multithreading, Collections, Streams, Exception Handling, Performance Optimization, Secure Coding Practices

Methodologies: Agile/Scrum, Sprint Planning, Estimation, Code Reviews, Refactoring

Core CS: Data Structures & Algorithms, Problem Solving

AI-Assisted Development: GitHub Copilot, Cascade, LLM-based coding assistants, AI agents for code generation and test scaffolding.

PROFESSIONAL EXPERIENCE

Senior Software Engineer

SIX DEE Telecom Solutions Private Limited – Bengaluru, Karnataka

Aug 2021 – Present

- Contributing to enterprise-grade application development across complete SDLC phases including design, implementation, deployment, and production support.
- Designing and developing scalable microservices and REST APIs using Java and Spring Boot, improving backend performance by 30% and reducing response times by 25%.
- Implementing modular service architecture adhering to object-oriented principles, separation of concerns, and transaction consistency.
- Developing and integrating React-based UI components with backend services where required, ensuring seamless API communication.
- Building and maintaining Camunda workflows and Spring Batch jobs for high-volume data processing, improving operational efficiency by 35%.

- Writing optimized SQL queries, ensuring proper indexing strategies and normalization standards.
 - Participating in troubleshooting, root cause analysis, defect resolution, and performance tuning in production environments.
 - Supporting CI/CD pipelines using GitLab to enable automated build, test, and deployment cycles.
 - Collaborating with QA, DevOps, and business stakeholders to meet SLAs and ensure system reliability.
-

KEY PROJECT EXPERIENCE

CRM Core Platform Development

SIX DEE Telecom Solutions Private Limited

- Contributed to enhancement of a shared CRM platform used across multiple enterprise clients.
 - Designed service-level components, entity models, and REST endpoints following microservices best practices.
 - Implemented JPA-based persistence logic with focus on transaction integrity and ORM performance optimization.
 - Integrated workflow automation and batch processes to support configurable business operations.
 - Participated in sprint ceremonies including planning, estimation, daily stand-ups, and retrospectives.
 - Ensured stable and repeatable deployments through CI/CD-driven release management.
 - Actively engaged in client discussions to clarify requirements and remove ambiguity.
-

INTERNSHIP EXPERIENCE

Front-End Developer Intern

TechZite Solution Private Limited – Vijayawada, Andhra Pradesh

- Developed responsive web application for a news publishing platform.
 - Assisted in UI enhancements and feature implementations in collaboration with the development team.
-

ACADEMIC PROJECTS

Image Caption Generator

- Developed a deep learning-based model using CNN and LSTM for automated image caption generation.
- Applied foundational concepts of NLP and computer vision.

Career Education & Job Opportunities Platform

- Built a web-based platform to provide career guidance and job awareness resources.
 - Designed modular structure for maintainability and scalability.
-

EDUCATION

Master of Computer Applications (MCA)

Vignan's Foundation for Science, Technology & Research, Andhra Pradesh

2019 – 2021 | Score: 81/100

ADDITIONAL STRENGTHS

- Strong understanding of object-oriented design and ability to identify deviations from design principles.
 - Experience in writing unit tests using JUnit and improving code coverage.
 - Good understanding of microservices communication patterns and data consistency strategies.
 - Hands-on experience in debugging complex issues with minimal supervision.
 - Clear communication skills with ability to interact directly with stakeholders and clients.
 - Focused on building secure, maintainable, and scalable enterprise solutions.
-
