Professional Summary

Senior Software Engineer with **4+ years of experience** in **enterprise and consulting-driven application development** using **Java (8+), Spring Boot, Microservices, and React**. Experienced across the **full software development lifecycle** including design, implementation, testing, deployment, and production support. Strong background in building **scalable, secure, and high-performance backend systems**, enabling **cloud-ready and hybrid deployment models**. Proven ability to collaborate with **clients, stakeholders, DevOps, and QA teams** to deliver solutions aligned with **SLAs, performance, and security requirements**. Hands-on experience with **CI/CD pipelines, workflow automation, and batch processing**, with a continuous learning mindset and strong focus on **code quality and system stability**.

Technical Skills

Programming Languages: Java (8+), JavaScript.

Backend Technologies: Java/J2EE, Spring Boot, Spring MVC, Spring JPA, Spring Batch, RESTful Web Services, API Integration, Microservices Architecture.

Frontend Technologies: ReactJS, HTML, CSS, Bootstrap.

Workflow & Processing: Camunda BPM, Business Process Automation, Batch Processing.

Databases: SQL (Relational Databases).

DevOps & CI/CD: GitHub, GitLab, GitLab CI/CD, Build & Deployment Automation.

Testing & Quality: JUnit, Unit Testing, Code Reviews.

Development Methodologies: Agile/Scrum, Object-Oriented Programming (OOP), Version Control, Performance Optimization, Code Refactoring.

Core Computer Science: Data Structures and Algorithms (DSA), Problem Solving.

Professional Experience

Senior Software Engineer

SIX DEE Telecom Solutions Private Limited - Bengaluru, Karnataka | Aug 2021 – Present

- Participated across the **full software development lifecycle** including design, development, testing, deployment, and production support for enterprise applications.
 - Designed and developed **scalable backend services and microservices** using **Java (8+) and Spring Boot**, improving backend performance by **30%** and reducing API response times by **25%**.
 - Implemented **RESTful APIs** and business logic to support cloud-ready and hybrid deployment architectures.
 - Developed and enhanced **React-based user interfaces** for enterprise applications, improving usability and reducing development effort by **40%**.
 - Built and maintained **Camunda-based workflow automation** and **Spring Batch jobs**, improving operational efficiency by **35%** and ensuring reliable large-scale data processing.
 - Collaborated closely with **QA, DevOps, and business stakeholders** to resolve issues, meet SLAs, and ensure application stability in production.
 - Supported **CI/CD pipelines using GitLab**, enabling smooth deployments and faster turnaround for feature releases.
 - Ensured adherence to **coding standards, security practices, and performance requirements** through testing, refactoring, and code reviews.
-

Projects

CRM Module Development (Core Platform – Full Stack)

SIX DEE Telecom Solutions Private Limited

- Contributed to the **continuous development and enhancement** of a **shared core CRM platform** used across **multiple client projects**.
 - Designed and implemented **new backend features, RESTful APIs, and UI enhancements** based on **client-specific and project-driven requirements**.
 - Integrated **workflow automation and batch processing** to support scalable and configurable business operations.
 - Worked closely with stakeholders to **analyze issues, implement fixes, and deliver enhancements** within defined timelines and SLAs.
 - Supported **CI/CD-driven releases via GitLab pipelines**, ensuring stable and repeatable deployments.
-

Front-End Developer Intern

TechZite Solution Private Limited | Vijayawada, Andhra Pradesh, India

- Developed a responsive web application for a **local news publishing platform** using **HTML, CSS, JavaScript, and PHP**.
-

Academic Projects

- **Image Caption Generator (LSTM-based):** Built a machine learning application using **CNN and RNN (LSTM)** models for image caption generation, applying **image processing and NLP techniques**.
 - **Career Education & Job Opportunities Platform:** Developed a scalable web application using **HTML, CSS, JavaScript, and PHP** to provide career guidance and improve awareness of education and job opportunities.
-

Education

Master of Computer Applications (MCA)

Vignan's Foundation for Science, Technology & Research, Andhra Pradesh, India

2019 – 2021 | Score: **81/100**

Additional Information

- Strong experience with **GitLab workflows and CI/CD execution** for automated build, test, and deployment processes.
- Expertise in **debugging, performance tuning, refactoring, batch optimization, and Camunda-based workflow automation**.
- Proficient in **API integration, microservices-based design, and defect tracking using Jira**.
- Applied **AI-assisted development tools** for initial code scaffolding, followed by **manual refinement and validation** to meet coding standards and performance requirements.
- Consistently focused on **code quality, scalability, and user-centric system design** in Agile environments.
